ENVIRONMENTAL COMPLIANCE MADE SIMPLE

## WHAT SETS US APART?

-  An extensive training program that goes beyond the state-minimum required training which allows us to increase compliance at your sites while driving down costs through things like avoiding unnecessary BMP's.
-  Fixed pricing for all services which helps with project budgeting. Priority/non-priority CBMPP evals included in inspection pricing!
-  We specialize in stormwater compliance and have for 15+ years. CMS has experience with LD, HB, increased topography, different soil compositions of areas, wetland delineation areas, and more.
-  Transparency and communication. You'll always know what's happening onsite when it comes to NPDES.
-  Strong partnerships with installation/maintenance companies to ensure what shows up on reports gets fixed.
-  Digital solutions for immediate delivery of inspections and access to compliance metrics.

THE REASON

# Why We Do What We Do

OUR MISSION is to bridge the gap between intent and action in the sustainability world by bringing and implementing realistic solutions to our clients, partners and communities.

OUR VISION is to be the worldwide leader in providing solutions in reducing humanity's impact on the environment.

# Litter Gitter

---

The Litter Gitter is more than a catchy name – it's a device that's changing the way we tackle the challenges posed by litter in our waters.

*Please remember to silence all devices*

*Make sure your name badge is always visible*
